Serial No. 09/891,568

Art Unit: 1771

## IN THE CLAIMS

- (Currently Amended) A composite sheet product comprising a scrim embedded in a continuous coating of a foamed resin, the composite sheet product being capable of conforming to a horizontal surface and having a thickness of from about 45 to about 150 mils.
- (Original) The sheet product of claim 1 wherein the foamed resin is selected from a group consisting of foamed polyvinyl chloride and foamed polyurethane.
- ? 3. (Original) The sheet product of claim 1 wherein the scrim is woven.
- % 4. (Original) The sheet product of claim 1 wherein the scrim is non-woven.
- (Original) The sheet product of claim 1 wherein the scrim comprises at least one member selected from a group consisting of natural fibers, synthetic fibers and mineral fibers.
- (Original) The sheet product of claim 1 wherein the foamed resin is a foamed polyvinyl chloride plastisol.
- (Currently Amended) The sheet product of claim 1 having a thickness of from about [[45]] 55 to about [[55]] 100 mils.
- (Original) The sheet product of claim having a thickness of from about 55 to about 100 mils.
- (Original) The sheet product of claim 1 wherein at least one side has been smoothed.

Art Unit: 1771

- 10. (Original) A combination of a horizontal surface and the composite sheet product of claim 1.
- 3 11. (Original) The sheet product of claim 2 wherein the scrim is woven.
- 42. (Original) The sheet product of claim 2 wherein the scrim is non-woven.
- (Original) The sheet product of claim 2 wherein the foamed resin is a foamed polyvinyl chloride plastisol.
- (Currently Amended) The sheet product of claim 2 having a thickness from about [[45]] <u>55</u> to about [[150]] <u>100</u> mils.
  - 15. (Original) The composite sheet product of claim 1 wherein the scrim is formed from spun strands.
  - 16. (Currently Amended) [[A]] The composite sheet product of claim 1 wherein the feam feamed resin comprises a feamed polyvinyl chloride plastisol[[,]] and the scrim comprises were polyester and the sheet product has a thickness of from about 45 mills to about 150 mills.

    Please enter the new claims.
  - 17. (New) An underlayment comprising the composite sheet product of claim1.
  - 18. (New) The composite sheet product of claim1 wherein at least one surface has non-slip properties.
- (New) The composite sheet product of claim 1 wherein no adhesive is present on a bottom surface of the composite sheet product.

Serial No. 09/891,568

Art Unit: 1771

- 21 20. (New) The composite sheet product of claim 1 having a cushioning effect.
- (New) The composite sheet product of claim 18 wherein top and bottom surfaces of the composite sheet product have non-slip properties.
  - 22. (New) The composite sheet product of claim 1 having a top surface which is impervious to water.
